

PRESS RELEASE

CAS Moves LAX Line Station

Ontario, California, September 4, 2018-Certified Aviation Services, LLC (CAS), has successfully relocated its LAX Line Maintenance station to 6201 West Imperial Hwy Los Angeles, CA 90045, to accommodate rapid growth.

CAS' previous location, north side of LAX, was a warehouse with limited office and parking space for the growing MRO. As CAS continues to be the largest 3rd party maintenance provider at LAX, to international and domestic carriers, a new facility was essential to accommodate the work that CAS continues to perform. The new location, at

Signature Flight Complex, provides CAS with increased office space, conference/training rooms, warehouse space to house parts and tooling, as well as more parking areas for both employees and maintenance vehicles.

John Blair, CAS' LAX Station Manager stated, "It is a breath of fresh air to be in the new facility. Our technicians, tooling, materials and training are all under one roof now, and has made CAS' work more efficient. We are open for business and ready to take on any new opportunities that come our way."

An open house will be held on Monday, September 17, to give customers and prospective customers an opportunity to view the new CAS facility and meet CAS team members. For more information regarding the open house please email, sales@certifiedaviation.com.

About Certified Aviation Services
